

**LiU FORMULA  
STUDENT**  
Where students become professionals

LiU Formula Student is an organization at Linköping University that competes in the world's largest design and manufacturing competition for students at collegiate level. The project offers a great opportunity to challenge yourself and develop the skills needed to excel at your job after graduation. We are now looking to recruit **you** for our next project, ER20.

## Subteam: Electric powertrain

### The team

The LiU Formula Student Electric powertrain team is our newest addition to the association and will be responsible for developing future electric traction systems. The goal of 2019-2020 project is to provide a single battery module and a system capable of spinning a singular synchronous permanent magnet motor. The ultimate goal of the subteam is to secure the association's and University's environmental friendly technology.

Please contact Ludvig Boström if you have any questions.
