

**LiU FORMULA  
STUDENT**  
Where students become professionals

LiU Formula Student is an organization at Linköping University that competes in the world's largest design and manufacturing competition for students at collegiate level. The project offers a great opportunity to challenge yourself and develop the skills needed to excel at your job after graduation. We are now looking to recruit **you** for our next project, ER20.

## Subteam: Electronics

### The team

The electronic team is responsible for bringing the car to life. This entails everything from connecting all the components to low voltage power, to creating software for the data acquisition stemming from the various sensors on the vehicle. The electronics team requires a diverse set of skills from students with different backgrounds. Prior experience and certain skills are preferred, but with the right work ethic exceptions can be made. Interest in motorsports is appreciated but not required.

## Position: Self-drive

### Self-drive

The start of our self driving car project. This position will lay the groundwork for a future car. It involves deciding the technological platform, sensors used, and programming. Depending on the progress made, it will involve making prototypes of small scale self driving cars.

### Basic qualifications

- Previous experience with self driving technology.
- Programming
- Product development

Please contact Johannes Wenggren if you have any questions.
